Adult sizes: S-3XL

Fabric Features/Benefits:

Available Colours and PMS Colours

Textile fabric colours are subject to dye lot variation and will not be exact match to print pantone reference

BLACK

Black C

MID GREY

Cool Grey 8C

DURABLE WATER REPELLENT:
DWR is applied to the face of the fabric to provide the first line of defense against wet weather.

INSULATED:
Insulation traps hot air for reduced heat loss and increased warmth.

PACKABLE/STOWABLE:
Highly compressible layer for emergency use or travel.

SYNTHETIC:
Designed to replicate the qualities of down, but retain them even when wet.

Due to the nature of nylon, special care must be taken throughout the decoration process

The North Face® products may not be resold without embellishment.

To protect its reputation and identity, The North Face® reserves the right to prohibit the addition to any The North Face® garment and trademark name, design or logo of an organization, business, school or team (or for an individual or other entity) that does not meet the high standards of the brand. PRINTING INSTRUCTIONS FOR NYLON FABRICS

Due to the nature of Nylon fabric, special care must be taken throughout the decoration process. Special care must be taken during the decoration process and after.

Here are some tips to effectively decorate these products.

Heat Transfer/Screen Printing:

- Garment temperature must not exceed 310°F or 154°C.
- Use fast fashion/low cure temperature ink to help prevent the need for a higher temperature to cure the ink.
- A test sample run is recommended in all printing processes, especially if you have a large order or if your printer does not specialize in printing on Nylon fabrics.
